

Host All of Your Project Management Software and Other Applications with MLM Project Services

MLM Project Services (MLM) is an Authorized Oracle|Primavera Hosting Provider whose core competency is hosting and managing Primavera Project Controls environments. MLM also hosts other application systems, including various accounting systems, estimating, financial & cost management, data repository, document collaboration, office management, as well as custom applications.

By utilizing MLM's Premier hosting and managed services, customers reliably and securely access their software applications via the Internet, realizing a low cost / high availability user experience with less than ½ of .1% disruptions or downtime... From a technical and support perspective, it just doesn't get any better!!!

More and more companies are looking to MLM Project Services for the following reasons:

- **Reduced Maintenance and Management Costs**
- **Increase Business Agility**
- **Access Difficult to Find Talent**
- **Improved Uptime and Performance**
- **Increased Speed to Market for New Implementations and Upgrades**
- **Improved Financial Expense Predictability**
- **Focus IT Talent on More Valuable / Revenue Enhancing Activities and Away from Daily Operations and Maintenance**

MLM's distinct advantages include:

- Dedicated system environments
- Customer owned and controlled software and data with nightly backups
- Tiered pricing model (not per user pricing - we don't nickel and dime our clients)
- Scalability (pay only for what you need now with scalability for future growth)
- Low predictable monthly costs (no capital expense outlay)
- Lowest total cost of ownership (reduced IT infrastructure and support costs)
- Hardware and software maintenance (version upgrades, patches, and fixes)
- Custom portal website for all hosted deployments with 1/2 Terabyte storage included
- State-of-the-Art Tier 3 Data Centers around the world with Accelerated deployments
- ISO 9001, Sarbanes Oxley, and SAS70 Type II certified
- Fast, reliable, and secure user access (from anywhere with an Internet connection)
- 24x7x365 prompt, courteous, and competent technical support
- 24x7x365 proactive monitoring of server and server availability
- 24x7x365 on-site hot-spare replacements
- 24x7x365 on-site security staff
- Unmetered 100 Mbps connectivity
- 6 x 2.5 Gbps (OC-48) connections to Tier 1 providers
- Off-site data mirroring for disaster recovery
- Dedicated in-house support staff (Oracle and Microsoft certified)

With MLM's 99.95% up-time SLA, N+1 redundancy of all network systems and infrastructure, Global Datacenters, and our competencies (over 20-years of experience and Oracle and Microsoft Certifications), it makes absolutely no financial or technological sense for companies to self-host and manage their software applications in-house when MLM can do it **faster, better, and for significantly less money!** Our hosting and managed services are approximately ½ the cost or less as compared to self-hosting and managing.

MLM Project Services is an affiliate company of DRMcNatty & Associates, Inc., in business since 1989 and one of the World's leading Oracle|Primavera Authorized Representative.
